

Alex Carter

Full-Stack Developer • hello@example.com • github.com/alexcarter

PROFILE

Full-stack developer with 6+ years of experience designing and shipping accessible, performant web applications using React, TypeScript and Node.js.

EXPERIENCE

Senior Full-Stack Developer — Northwind Labs (2023 — Present)

Lead engineer on the analytics platform. Shipped a real-time dashboard used by 20k+ users and mentored a team of 5.

Full-Stack Developer — Lumen Studio (2021 — 2023)

Built and scaled a multi-tenant CMS with Next.js and Postgres. Led the migration from REST to tRPC, cutting client code by 40%.

Frontend Developer — Pixel & Co. (2019 — 2021)

Designed and developed marketing sites and design systems for early-stage startups. Owned accessibility and performance budgets.

Junior Web Developer — Freelance (2018 — 2019)

Delivered 15+ client projects ranging from landing pages to e-commerce stores.

SKILLS

React, TypeScript, Next.js, Tailwind, Node.js, tRPC, GraphQL, PostgreSQL, Redis, AWS, Cloudflare, Docker.

EDUCATION

B.Sc. Computer Science — State University (2015 — 2019)
